

Head & Face Protection

Workers are required to wear the correct PPE whenever working in areas where there's potential of falling or flying objects or exposure to chemical splash.

Visit www.osha.gov for complete details and regulation requirements.

V-Gard® Standard Caps

Durable, injection-molded, high-density polyethylene (HDPE) shell designed with accessory slots to accommodate many add-on features. Available with two types of suspensions: Fas-Trac® III ratchet suspension: 4-point webbed system with large knob for easy adjustment or Staz-On® pinlock suspension: comfortable, 4-point webbed system. Includes sweatband and adjustable crown straps. Meets ANSI/ISEA Z89.1-2009, Type 1, Class E.

Freedom Series™ V-Gard® Protective Hard Hat

Stay compliant while protecting head and expressing patriotism. Bright designs are unique, with a superior shiny finish. Come equipped with MSA's Fas-Trac® III suspension and meet all applicable requirements for a Type I (top impact) helmet as outlined in ANSI/ISEA Z89.1-2014 (Class E) and CSA Z94.1-2015 (Class E). Also meet the ANSI/ISEA Z89.1-2014 and CSA Z94.1-2015 voluntary standard for reverse donning. Look for the official reverse donning symbol to determine if hard hat may be worn backwards without voiding approvals.

Bullard Visors

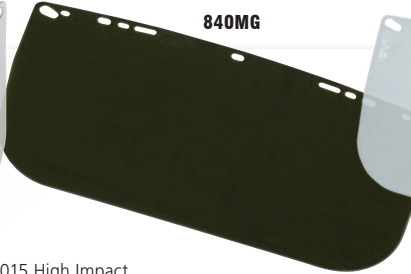

Flat acetate is for chemical applications and light impact protection. Heat-formed polycarbonate is for high-heat applications with little or no exposure to chemicals.

(Heat-formed visors are curved to the shape of the bracket to minimize stress cracking and improve ease of attachment).

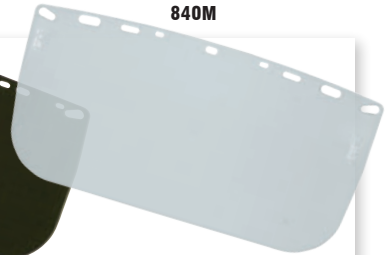

Acetate visors and polycarbonate visors (plus Tritan) meet ANSI/ISEA Z87.1-2015 High Impact.

Bionic® Faceshields and Replacement Visors

Provides excellent optics, visibility, and enhanced protection from airborne debris. Ideal for workers exposed to falling or flying objects, impact, chemical splash and other debris. Features extended chin and top-of-head protection, lightweight and balanced design to reduce head and neck strain, cell foam on back of headgear, and breathable, washable sweatband up front. Dual position visors are easy to replace and attach securely. Comfortably worn with most goggles, eyewear and respirators. Meets ANSI Z87.1+ High Impact standard. Certified to the requirements of the CSA Z94.3 standard.

Bullard® Replacement Brow Pads

Brow pads cushion while absorbing moisture to keep wearers feeling cool and clean. Replaceable on all Standard and Classic Series hard hats. Velcro® easily in place over original pads, ensuring comfort and protection. RBPCOOL replacement brow pad is made of Polartec® wicking material that moves sweat away from the worker's brow. RBPCOTTON is a large, absorbent cotton replacement pad. Both styles fit all current Bullard® hard hats.

Turboshield™

Perfect for workers exposed to falling or flying objects, impact, splash and airborne debris; it can also be comfortably worn with most goggles, respirators and earmuffs. Flexible head-cushioning suspension cradle provides 300% greater contact area than traditional suspensions to eliminate pressure points for all-day wear. Simple push-button release system allows for easy visor exchange in seconds. Feel safer with 50% more chin coverage compared to traditional visors, without the need for bulky accessories. Control knobs are large and ergonomically designed for easy adjustment, even while wearing gloves. Visor slides back 7", improving balance and weight distribution. Headgear features breathable, removable, washable headband; toric lens provides excellent optics, increased field of view and added chin coverage without bulky attachments. Clear and Gray lenses available with dual anti-scratch/anti-fog coating for longer visor life and reduced fogging. Ergonomically designed ratcheting headgear mechanism assures quick, easy adjustment to achieve an optimal fit. Hard hat adapter accessory is compatible with multiple hard hats, including Fibre-Metal®, North® and most major competitor styles. Positive-locking hinge secures visor in raised and lowered positions. Integrated brim guard ensures gap-free fit and protection from overhead debris. Meets ANSI Z87.1-2010 and CSA Z94.3 standards. Faceshields offer secondary protection and must be worn with spectacles or goggles.

Protecto-Shield® Prolok® Headgear and Visors

Tough thermoplastic headgear provides impact and splash protection and feature heat-resistant browguard. Specially designed with chemical splash drip edge to prevent fluids from splashing down inside the visor. Easy sizing and tension adjustment for individual visor positioning. Visors measure 8 1/2" x 15" x .070" and attach easily without snaps, posts or levers. Meets ANSI Z87.1-2010 and CSA Z94.3 standards.

Note: Faceshields [and face screens] provide secondary eye protection only and must be worn along with approved primary eye protection, such as safety glasses or goggles, in order to provide complete eye protection.

Honeywell

SuperEight® Caps and Hats

High-quality thermoplastic hats and caps feature unique, smooth crown that eliminates the danger of falling objects being trapped by ribs, ridges or slots. Wearer can adjust head size by using rear-located ratchet mechanism and tilting the headband. All hats and caps include 8-point suspension and available with Fibre-Metal non-slip/non-strip ratchet, SwingStrap™ or TabLok™ headgear. All styles are SEI certified to meet ANSI Z89.1-2009, Type 1, Class E.

Note: Available in a variety of colors. E2 cap is compatible with Quik-Lok® or Speedy® Loop helmet attachment system for faceshield and welding helmets. Call customer service for more information.

Honeywell F300, F400 and F500 Series Faceshield Headgear

A variety of faceshield headgear with crown protectors provides the level of protection you need. All models feature lightweight and heat-resistant Noryl® (the same material used in welding helmets) crown protectors and ratchet headbands (windows sold separately). Meets ANSI Z87.1+ High Impact standard. Certified to the requirements of the CSA Z94.3 standard.

F300 lightweight faceshield headgear provides general face protection for light-duty applications. Easily fits over spectacles, leaving room for air circulation to prevent fogging. Accommodates standard size (8" x 11 1/2") windows.

F400 features a deeper 4" crown protector to extend protection without increasing weight. Incorporates wide-vision (8" x 17") wraparound windows and screens which provide 40% more protective area than standard size faceshields. Fits easily over required spectacles or respirators.

F500 includes a broader, deeper 7" crown protector to provide an extra margin of protection when harsh working conditions require it. Features the exclusive Channel Grip System that mounts wide, wraparound windows and locks them into place to form a perfect seal from dust, dirt and debris. Includes Fibre-Metal classic 3-C, free-floating headgear.

Headgear Brackets and Faceshields

Headgear features locking cams which eliminate snaps and lower replacement costs. Aluminum rim headgear bracket (102) features a 5-system cam lock for added impact resistance. Ratchet, take-up headgear (103) also features a 5-system cam lock for heightened impact resistance, a large ratchet handle, and a cotton sweatband for comfortable fit. Constructed from ABS material and a crown made of nylon 66. All headgear accepts most manufacturers' universally punched windows. Meets ANSI Z87.1+ High Impact standard. For use as secondary protection only. Faceshields sold separately.

3M 3M™ Hard Hat H-800 Series

Protective full brim hard hat with comfortable 4-point ratchet suspension and standard brow pad. Suspension sits lower on head to reduce pressure and increase security. Optimized comfort with three levels of height adjustment. Optional Uvicator™ sensor offers workers an easy way to monitor hard hat's exposure to the sun, so wearer will know when to replace it. Meets requirements of ANSI/ISEA Z89.1-2009 Type 1, Class C, G and E.

! WARNING

These eye and face protection products help provide limited eye and face protection. Misuse or failure to follow warnings and instructions may result in serious potential injury, including blindness or death. For proper use, selection, and applications against flying particles, optical radiation and/or splash see supervisor, read *User Instructions* and warnings on the package or call 3M PSD Technical Service in the USA at 1-800-243-4630. In Canada, call 1-800-267-4414.

3M 3M™ Hard Hat H-700 Series

Tough and lightweight. Designed with a low profile for improved stability and balance. Comfortable protection from small falling objects that strike the top of hard hat. Features replaceable brow pad, short brim for better upward visibility and accessory slots to accommodate earmuffs, headgear, faceshields and welding helmets. Available with 4-point pinlock or ratchet suspension with height adjustment. Ideal for heavy and light industrial work, construction, oil and gas, forestry and mining. Non-vented meets the requirements of ANSI/ISEA Z89.1-2009 Type I, Class C, G and E. Vented meets the requirements of ANSI/ISEA Z89.1-2009 Type I, Class C.
