EXPERIENCE THE POWER OF PROTECTION.

POWERFLEX®

Designed to handle the rigors of almost any job, PowerFlex gloves provide an ideal combination of abrasion and puncture resistance, superior wet and dry grip, and unbelievable comfort. That's because each glove features a soft, gray, seamless poly/cotton knit liner that's palm-dipped with a textured, natural rubber coating.*

APPLICATIONS: General Maintenance, Shipping & Receiving, Assembly, Concrete & Brick

POWERFLEX®

POWERFLEX® T° HI VIZ YELLOW™

Ideal for any cold environment, this version of the PowerFlex glove offers a hi viz (high visibility) yellow thermal terry liner with a natural rubber coating* for added grip. Thanks to the gloves' optimal warmth, flexibility and grip, you can accomplish any task from handling cold objects to working in conditions where temperatures can drop as low as -25°C or -13°F.

APPLICATIONS: Cold Environment Work, Cold Storage, Winter Transportation, Unheated Warehouses, Yard & Field Work, Municipal Work, Public Utilities, General Maintenance, Offshore Applications, Cold Weather Construction

POWERFLEX® T° HI VIZ YELLOW™

POWERFLEX® PLUS™

PowerFlex Plus takes protection to the next level. These gloves feature a seamless KEVLAR® knit lining for increased cut, abrasion and puncture resistance while still providing the comfort you want. Plus they're palm-dipped with a textured, natural rubber coating* for the exceptional grip you expect.

APPLICATIONS: Sheet Metal, Glass Handling, Recycling, Canning, Bottling

SUPERIOR DESIGN FOR EXCEPTIONAL COMFORT

All PowerFlex gloves are ergonomically designed to provide unmatched fit and comfort. The uncoated back allows air to circulate to keep hands cooler and drier, and the fully coated thumb provides added protection in this high-risk area. For the best protection, ordering the right size gloves is the best way to assure that hand protection products are comfortable. That's why PowerFlex gloves are available in several sizes for a comfortable and adjusted fit.
